

# Index

- $L^2$  projection, 102, 121, 149, 151, 156
- approximation results, 24, 35, 119, 120, 175
- averages, 28
- Banach space, 71, 131
- Brouwer's theorem, 132
- Buckley–Leverett problem, 151
- coercivity, 26, 38, 74, 112, 124
- compact support, 20
- condition number, 49, 59
- conforming mesh, 28, 39
- Courant number, 100
- discontinuous Galerkin (DG) method  
  local, 59  
  primal, 3, 41, 64, 76, 143, 145  
  dual space, 20, 121
- elasticity, 109, 111, 115
- elliptic projection, 77, 82, 98
- energy norm, 12, 38, 42, 111, 124, 133
- Gronwall's inequality, 71, 76, 78, 81
- Hilbert space, 20, 121, 132
- incomplete interior penalty Galerkin  
  (IIPG) method, 6, 37, 74, 78,  
  123, 130, 150
- inf-sup, 121, 122, 125, 137
- inner product, 20, 117, 136
- inverse inequalities, 73, 128
- Jacobian matrix, 32, 34
- jumps, 28, 88
- Korn's inequality, 28, 110, 113
- Lax–Milgram theorem, 26, 122
- local dimension, 35, 36
- mass conservation, 41, 66, 112, 124
- miscible displacement, 153
- nonconforming mesh, 51, 65
- nonsymmetric interior penalty Galerkin  
  (NIPG) method, 6, 37, 74, 78,  
  130, 150
- norm, 12
- orthogonality equation, 42, 78
- overshoot, 100, 150
- Peclet number, 100, 155
- penalty parameter, 29, 40, 140
- Poincaré's inequality, 72, 76, 78, 131
- reference element  
  quadrilateral, 33  
  tetrahedron, 34  
  triangle, 32
- seminorm, 12
- slope limiters, 101, 150, 156
- Sobolev imbedding, 22, 131
- superpenalization, 48, 49, 57, 77
- symmetric interior penalty Galerkin  
  (SIPG) method, 6, 37, 74, 78,  
  130, 150

test functions, 32, 77, 88, 97, 112

trace inequalities, 23

two-phase flow, 145

undershoot, 100, 150

upwind, 96, 105, 149, 156

weak solution, 26, 122, 133
