In the update formula for c_n and s_n , inside both square roots, $(H_n)_{n,n}^2$ has to be replaced by

$IH_{nl}_{n,n}^2$

Following [132] (**see also the BFGS algorithm (see e.g. [A1])**), the hybrid Schwarz preconditioner is defined as follows:

Note that GenEO versions of the Neumann–Neumann and FETI algorithms were first introduced in [179] and then analyzed in [180], **see also [A2] for a very closely related method.**
