BOOK SERIES
To identify the series to which a book belongs, simply match the first two characters of its order code to the key below. Details about each series can be found at www.siam.org/books/series/index.php.

Advances in Design and Control (DC)
EIC: Ralph C. Smith, North Carolina State University

ASA-SIAM Series on Statistics and Applied Probability (SA)

CBMS-NSF Regional Conference Series in Applied Mathematics (CB)
CBMS Administrative Officer: Ron Rosier

Classics in Applied Mathematics (CL)
EIC: Robert E. O’Malley, Jr., University of Washington

Computational Science and Engineering (CS)
EIC: Donald Estep, Colorado State University

Discrete Mathematics and Applications (DT)

Financial Mathematics (FM)
EIC: Thaleia Zariphopoulou, The University of Texas at Austin

Frontiers in Applied Mathematics (FR)

Fundamentals of Algorithms (FA)
EIC: Nicholas J. Higham, University of Manchester

Mathematics in Industry (MN)
EIC: Thomas A. Grandine, Boeing Company

Mathematical Modeling and Computation (MM)
EIC: Richard Haberman, Southern Methodist University

MOS-SIAM Series on Optimization (MP or MO)
EIC: Katya Scheinberg, Lehigh University

Other Titles in Applied Mathematics (OT)

SIAM Spotlights (SL)
Software, Environments, and Tools (SE)
EIC: Jack J. Dongarra, University of Tennessee at Knoxville and Oak Ridge National Laboratory

Studies in Applied and Numerical Mathematics (AM)

### USEFUL INFORMATION ABOUT SIAM BOOKS

**SOCIETY for INDUSTRIAL and APPLIED MATHEMATICS**
The Society for Industrial and Applied Mathematics (SIAM), headquartered in Philadelphia, is an international community of more than 14,000 individual and nearly 500 academic and corporate institutional members. Members are applied and computational mathematicians, computer scientists, engineers, and students located in over 100 countries. SIAM publishes a variety of books and peer-reviewed journals, conducts conferences, and hosts activity groups in various areas of mathematics. Further information is available at www.siam.org.

**ABOUT THIS CATALOG**
Titles published within the past year are featured on pages 3–5 and appear in blue throughout the catalog. Otherwise, the catalog is organized by subject area with titles in alphabetical order by the first author’s last name. An author index is provided on pages 20–22 that includes cross-references to the subject listing. A subject index appears on pages 23–27.

Expanded information about each book in this catalog is available at bookstore.siam.org.

**CONSIDER PUBLISHING YOUR BOOK WITH SIAM**
For more information about SIAM’s book program view “Information for Authors” at www.siam.org/books/authors/ or contact acquisitions@siam.org.

**ORDERING INFORMATION**
You can order SIAM books via phone, fax, or on the Web via a secure server (credit card orders only: American Express, MasterCard, VISA). If ordering by phone, please have the following information ready when you call: the book’s order code and/or title, author, and ISBN. If you would like to speak to a Customer Service Representative, please call Monday through Friday between 8:30 a.m. and 4:45 p.m. Eastern Time.

Secure online shopping cart: bookstore.siam.org.
Phone (worldwide): +1-267-350-6321
Phone (USA and Canada): 1-800-447-SIAM (7426)
Fax: +1-215-386-7999

Please specify your complete “bill to” and “ship to” addresses, phone number, and name of contact. Information about standard shipping and handling charges, standard delivery times, terms, returns, sales tax, and discounts can be found at www.siam.org/books/ordering/how.php. SIAM is not responsible for Customs fees or loss or damage to packages if you use your own shipping account. If you mail your order to SIAM, please include shipping charges.

Contact SIAM Customer Service if you are interested in setting up a standing order.

Members and customers outside North America can purchase SIAM books through Cambridge University Press’s distribution and sales network. For more details, go to www.cambridge.org/siam.

**E-books:** For perpetual access or subscriptions to SIAM e-books for institutions or libraries, contact Joanne Cassetti, +1-267-350-6321 or cassetti@siam.org. For institutional/library e-book information, visit www.siam.org/ebooks. Individuals may purchase most SIAM books in e-book format on Google Play at http://play.google.com.

**SIAM PUBLICATIONS SUITABLE for COURSE ADOPTION**
A list of SIAM textbooks can be found at www.siam.org/books/textbooks.

**BOOKSTORES and AGENTS**
For information on selling SIAM books, contact Bruce Bailey at bailey@siam.org.

**PRICES/DISCOUNTS**
All individual, corporate, and academic members of SIAM are entitled to a 30% discount, which is reflected in the SIAM Member Price. Members of the Mathematical Optimization Society are entitled to a 30% discount on books in the MOS-SIAM Series on Optimization; members of the American Statistical Association are entitled to a 30% discount on books in the ASA-SIAM Series on Statistics and Applied Probability; and members of the Conference Board of the Mathematical Sciences are entitled to a 30% discount on books in the CBMS-NSF Regional Conference Series in Applied Mathematics. Students whose professors adopt a SIAM book for use in their class can receive a 20% discount (see below). Prices are subject to change without notice. Books used in conjunction with your work may be tax deductible. Please recommend library acquisition of books for teaching and research.

**ADOPTION DISCOUNT AVAILABLE**
Professors: If you adopt any SIAM book as a required text for your class, your students can receive a 20% discount. For details, go to www.siam.org/books/program/discount.php.

**NEW SERIES**
SIAM Spotlights comprises brief and enlightening books on timely topics in applied and computational mathematics and scientific computing. The books, spanning 125 pages or less, are produced on an accelerated schedule and are attractively priced. Potential authors should contact Elizabeth Greenspan (greenspan@siam.org).

**STUDENT TRAVEL FUND:** The author(s) or editor(s) of entries marked with (#) contribute all or a portion of the royalties from the sale of their book to the SIAM Student Travel Fund to help students attend SIAM meetings.
Introduction to Nonlinear Optimization: Theory, Algorithms, and Applications with MATLAB
Amir Beck
MOS-SIAM Series on Optimization 19
Readers will find more than 170 theoretical, algorithmic, and numerical exercises that deepen and enhance the reader’s understanding of nonlinear optimization. The author includes several subjects not typically found in optimization books—for example, optimality conditions in sparsity-constrained optimization, hidden convexity, and total least squares. The book also offers a large number of applications discussed theoretically and algorithmically.

Solving Transcendental Equations: The Chebyshev Polynomial Proxy and Other Numerical Rootfinders, Perturbation Series, and Oracles
John P. Boyd
Transcendental equations arise in every branch of science and engineering. While most of these equations are easy to solve, some are not, and that is where this book serves as the mathematical equivalent of a skydiver’s reserve parachute—not always needed, but indispensable when it is. The author’s goal is to teach the art of finding the root of a single algebraic equation or a pair of such equations.

Finite Dimensional Linear Systems
Roger W. Brockett
Classics in Applied Mathematics 74
Originally published in 1970, this is a classic textbook that provides a solid foundation for learning about dynamical systems and encourages students to develop a reliable intuition for problem solving. It touches upon many of the standard topics in applied mathematics, develops the theory of linear systems in a systematic way, making as much use as possible of vector ideas, and contains a number of nontrivial examples and many exercises.

Active Subspaces: Emerging Ideas for Dimension Reduction in Parameter Studies
Paul G. Constantine
SIAM Spotlights 2
Active subspaces are an emerging set of dimension reduction tools that identify important directions in the parameter space. This book describes techniques for discovering a model’s active subspace and proposes methods for exploiting the reduced dimension to enable otherwise infeasible parameter studies. Readers will find new ideas for dimension reduction, easy-to-implement algorithms, and several examples of active subspaces in action.

Arc Routing: Problems, Methods, and Applications
Ángel Corberán and Gilbert Laporte, Editors
MOS-SIAM Series on Optimization 20
This thorough and up-to-date discussion of arc routing by world-renowned researchers is organized by problem type and offers a rigorous treatment of complexity issues, models, algorithms, and applications. It opens with a historical perspective of the field and is followed by three sections that cover complexity and the Chinese Postman and the Rural Postman problems; the Capacitated Arc Routing Problem and routing problems with min-max and profit maximization objectives; and important applications, including meter reading, snow removal, and waste collection.

Climate Modeling for Scientists and Engineers
John B. Drake
Mathematical Modeling and Computation 19
Focusing on high-end modeling and simulation of earth’s climate, Climate Modeling for Scientists and Engineers presents observations about the general circulations of the earth and the partial differential equations used to model the dynamics of weather and climate and covers numerical methods for geophysical flows in more detail than many other texts. It also discusses parallel algorithms and the role of high-performance computing used in the simulation of weather and climate and provides supplemental lectures and MATLAB® exercises on an associated Web page.

Unified Transform for Boundary Value Problems: Applications and Advances
A. S. Fokas and B. Pelloni
This book describes state-of-the-art advances and applications of the unified transform and its relation to the boundary element method. The authors present the solution of boundary value problems from several different perspectives, in particular the type of problems modeled by partial differential equations (PDEs). They discuss recent applications of the unified transform to the analysis and numerical modeling of boundary value problems for linear and integrable nonlinear PDEs and the closely related boundary element method.

Computational Methods in Geophysical Electromagnetics
Eldad Haber
Mathematics in Industry 01
This monograph provides a framework for students and practitioners who are working on the solution of electromagnetic imaging in geophysics. Bridging the gap between theory and practical applied material, it provides a simple explanation of finite volume discretization, basic concepts in solving inverse problems through optimization, a summary of applied electromagnetics methods, and MATLAB® code for efficient computation.

Mathematics of Planet Earth: Mathematicians Reflect on How to Discover, Organize, and Protect Our Planet
Hans Kaper and Christiane Rousseau, Editors
Our planet faces many challenges. In 2013, an international partnership of more than 140 scientific societies, research institutes, and organizations focused its attention on these challenges. This project was called Mathematics of Planet Earth and featured English- and French-language blogs, accessible to nonmathematicians, as part of its outreach activities. The book is based on more than 100 of the 270 English-language blog posts and focuses on four major themes: A Planet to Discover; A Planet Supporting Life; A Planet Organized by Humans; and A Planet at Risk.

The Defocusing Nonlinear Schrödinger Equation: From Dark Solitons to Vortices and Vortex Rings
P. G. Kevrekidis, D. J. Frantzeskakis, and R. Carretero-González
This is a broad study of nonlinear excitations in self-defocusing nonlinear media, summarizing state-of-the-art knowledge on the defocusing nonlinear Schrödinger-type models in a single volume. The book contains a wealth of resources, including over 800 references to relevant articles and monographs and a meticulous index for ease of navigation.

Evaluating Gas Network Capacities
Thorsten Koch, Benjamin Hiller, Marc E. Pfetsch, and Lars Schewe, Editors
MOS-SIAM Series on Optimization 21
This book provides an introduction to the field of gas transportation planning and discusses in detail the advantages and disadvantages of several mathematical models that address gas transport within the context of the technical and regulatory framework. It shows how to solve the models using sophisticated mathematical optimization algorithms and includes examples of large-scale applications of mathematical optimization to this real-world industrial problem.

Finite Element Methods for Computational Fluid Dynamics: A Practical Guide
Dmitri Kuzmin and Jari Hämäläinen
Computational Science and Engineering 14
This informal introduction to computational fluid dynamics and practical guide to numerical simulation of transport phenomena covers the derivation of the governing equations, construction of finite element approximations, and qualitative properties of numerical solutions, among other topics. The authors emphasize practical implementation rather than mathematical theory.

Preconditioning and the Conjugate Gradient Method in the Context of Solving PDEs
Josef Málek and Zdeněk Strakoš
SIAM Spotlights 1
This is the first title in SIAM’s new Spotlights series of brief and enlightening books on timely topics. It discusses the interplay between modeling, analysis, discretization, matrix computation, and model reduction. The authors link PDE analysis, functional analysis, and calculus of variations with matrix iterative computation using Krylov subspace methods and address the challenges that arise during formulation of the mathematical model through to efficient numerical solution of the algebraic problem. This text challenges commonly held views, addresses widespread misunderstandings, and formulates thought provoking open questions for further research.

Wim Michiels and Silviu-Iulian Niculescu
Advances in Design and Control 27
In this revised edition, the authors make the leap from stabilization to the design of robust and optimal controllers and from retarded-type to neutral-type delay systems, thus enlarging the scope of the book within control. They include new, state-of-the-art material on numerical methods and algorithms to broaden the book’s focus and to reach additional research communities, in particular numerical linear algebra and numerical optimization and they increase the number and range of applications to better illustrate the effectiveness and generality of their approach.

Model Emergent Dynamics in Complex Systems
A. J. Roberts
Mathematical Modeling and Computation 20
Arising out of the growing interest in and applications of modern dynamical systems theory, this book explores how to derive relatively simple dynamical equations that model complex physical interactions. The authors use sound theory to explore algebraic techniques, develop interesting applications, and discover general modeling principles. The book unifies into one powerful and coherent approach the many varied extant methods for mathematical model reduction and approximation.

Spline Functions: Computational Methods
Larry L. Schumaker
This book describes in detail the key algorithms needed for computing with spline functions and illustrates their use in solving several basic problems in numerical analysis, including function approximation, numerical quadrature, data fitting, and the numerical solution of PDEs. The focus is on computational methods for bivariate splines on triangulations in the plane and on the sphere, although both univariate and tensor-product splines are also discussed.

Paolo Toth and Daniele Vigo, Editors
MOS-SIAM Series on Optimization 18
The text of this new edition is either completely new or significantly revised and provides extensive and complete state-of-the-art coverage of vehicle routing by those who have done most of the innovative research in the area. It emphasizes methodology related to specific classes of vehicle routing problems and, since vehicle routing is used as a benchmark for all new solution techniques, contains a complete overview of current solutions to combinatorial optimization problems. It also includes several chapters on important and emerging applications.

The Shapes of Things: A Practical Guide to Differential Geometry and the Shape Derivative
Shawn W. Walker
Advances in Design and Control 28
This self-contained overview of differential geometry explains how to differentiate a function (in the calculus sense) with respect to a “shape variable.” This approach, which is useful for understanding mathematical models containing geometric partial differential equations, allows readers to obtain formulas for geometric quantities that are clearer than those usually offered in differential geometry texts.

Integral Equation Methods in Scattering Theory
David Colton and Rainer Kress
978-1-611973-15-0 / 2013 / CL72 / List $92.00 / Member $64.40

A Primer on Integral Equations of the First Kind
G. Milton Wing and John D. Zahrt
978-0-898716-3-6 / 1991 / OT27 / List $68.50 / Member $47.95

FUNCTIONAL and INTEGRAL EQUATIONS

Linear and Nonlinear Functional Analysis with Applications
Philippe G. Ciarlet
978-1-611972-58-0 / 2013 / OT130 / List $98.00 / Member $68.60

Integral Equation Methods in Scattering Theory
David Colton and Rainer Kress
978-1-611973-15-0 / 2013 / CL72 / List $92.00 / Member $64.40

A Primer on Integral Equations of the First Kind
G. Milton Wing and John D. Zahrt
978-0-898716-3-6 / 1991 / OT27 / List $68.50 / Member $47.95

GEOMETRIC DESIGN

Introduction to the Mathematics of Subdivision Surfaces
Lars-Erik Andersson and Neil F. Stewart
978-0-898716-97-9 / 2010 / OT120 / List $80.00 / Member $56.00

Symmetry in Chaos: A Search for Pattern in Mathematics, Art,
and Nature, Second Edition
Michael Field and Martin Golubitsky
978-0-898716-72-6 / 2009 / OT111 / List $63.50 / Member $44.45

Knot Insertion and Deletion Algorithms for B-Spline Curves
and Surfaces
Ronald N. Goldman and Tom Lyche
978-0-898713-06-0 / 1993 / OT36 / List $91.00 / Member $63.70

Curve and Surface Design
Hans Hagen, Editor
978-0-898718-12-1 / 1992 / OT29 / List $99.00 / Member $69.30

Topics in Surface Modeling
Hans Hagen, Editor
978-0-898718-82-7 / 1992 / OT30 / List $101.00 / Member $70.70

OT29 and OT30 are available at special combined set prices:
List $179.50 / Member $125.65

Approximation and Modeling with B-Splines
Klaus Höllig and Jörg Hörner
978-1-611972-94-8 / 2013 / OT132 / List $85.00 / Member $59.50

Mathematical Aspects of Geometric Modeling
Charles A. Micchelli
978-0-898713-31-2 / 1994 / CB65 / List $75.00 / Member $52.50

Architectural Geometry
Helmut Pottmann, Andreas Asperl, Michael Hofer, and Axel Kilian
978-1-934493-0-45 / 2007 / BP01 / List $175.00 / Member $122.50

Academic prices available

Designing Fair Curves and Surfaces: Shape Quality in Geometric Modeling and Computer-Aided Design
Nickolas S. Sapidis, Editor
978-0-898713-32-9 / 1994 / OT44 / List $117.00 / Member $81.90

Cardinal Spline Interpolation
I. J. Schoenberg
978-0-898710-09-0 / 1973 / CB12 / List $47.00 / Member $32.90

GEOGRAPHICAL SCIENCES

The Mathematics of Reservoir Simulation
Richard E. Ewing, Editor
978-0-898716-62-7 / 1984 / FR01 / List $72.50 / Member $50.75

Computational Methods in Geophysical Electromagnetics
Eldad Haber
978-1-611973-79-2 / 2014 / MN01 / List $65.00 / Member $45.50

Mathematics of Planet Earth: Mathematicians Reflect on How to Discover, Organize, and Protect Our Planet
Hans Kaper and Christiane Rousseau, Editors
978-1-611973-70-9 / 2015 / OT140 / List $98.00 / Member $68.60

IMAGE PROCESSING

Image Processing and Analysis: Variational, PDE, Wavelet,
and Stochastic Methods
Tony F. Chan and Jianhong (Jackie) Shen
978-0-898715-89-7 / 2005 / OT94 / List $86.50 / Member $60.55

*Numerical Linear Algebra*  
Lloyd N. Trefethen and David Bau III  
978-0-898713-61-9 / 1997 / OT50 / List $67.00 / Member $46.90

*The Total Least Squares Problem*  
Sabine Van Huffel and Joos Vandewalle  
978-0-898717-12-5 / 1991 / FR09 / List $68.50 / Member $47.95

*The Matrix Eigenvalue Problem: GR and Krylov Subspace Methods*  
David S. Watkins  
978-0-898716-41-2 / 2007 / OT101 / List $109.00 / Member $76.30

*MATHEMATICAL PHYSICS*  
Lectures on Geometric Methods in Mathematical Physics  
Jerrold E. Marsden  
978-0-898711-70-7 / 1981 / CB37 / List $50.00 / Member $35.00

Mathematics Applied to Continuum Mechanics  
Lee A. Segel with G. H. Handelman  
978-0-898716-20-7 / 2007 / CL52 / List $93.50 / Member $65.45

Continuum Modeling in the Physical Sciences  
E. van Groesen and Jaap Molenaar  
978-0-898716-25-2 / 2007 / MM13 / List $72.00 / Member $50.40

Contemporary Problems in Statistical Physics  
George H. Weiss, Editor  
978-0-898713-23-7 / 1994 / OT41 / List $94.50 / Member $66.15

*NONLINEAR WAVES*  
Nonlinear Water Waves with Applications to Wave-Current Interactions and Tsunamis  
Adrian Constantin  
978-1-611971-86-6 / 2011 / CB81 / List $92.00 / Member $64.40

The Defocusing Nonlinear Schrödinger Equation: From Dark Solitons to Vortices and Vortex Rings  
P. G. Kevrekidis, D. J. Frantzeskakis, and R. Carretero-González  
978-1-611973-93-8 / 2015 / OT143 / Please see web page for pricing

Nonlinear Waves in Integrable and Nonintegrable Systems  
Jianke Yang  
978-0-898717-05-1 / 2010 / MM16 / List $91.00 / Member $63.70

**NUMERICAL ANALYSIS**

Computational Methods for Option Pricing  
Yves Achdou and Olivier Pironneau  
978-0-898719-73-6 / 2005 / FR30 / List $92.50 / Member $64.75

Introduction to Numerical Continuation Methods  
Eugene L. Allgower and Kurt Georg  
978-0-898715-44-6 / 2003 / CL45 / List $77.00 / Member $53.90

Numerical Solution of Algebraic Riccati Equations  
Dario A. Bini, Bruno Iannazzo, and Beatrice Meini  
978-1-611972-08-5 / 2012 / FA09 / List $71.50 / Member $50.05

The Numerical Solution of Elliptic Equations  
Garrett Birkhoff  
978-0-898710-01-4 / 1972 / CB01 / List $42.00 / Member $29.40

Numerical Solution of Elliptic Problems  
Garrett Birkhoff and Robert E. Lynch  
978-0-898714-76-0 / 1984 / AM06 / List $87.50 / Member $61.25

The SIAM 100-Digit Challenge: A Study in High-Accuracy Numerical Computing  
Folkmar Bornemann, Dirk Laurie, Stan Wagon, and Jörg Waldvogel  
978-0-898716-51-3 / 2004 / OT86 / List $72.50 / Member $50.75

Solving Transcendental Equations: The Chebyshev Polynomial Proxy and Other Numerical Rootfinders, Perturbation Series, and Oracles  
John P. Boyd  
978-1-611973-51-8 / 2013 / OT113 / List $99.00 / Member $69.30

Spectral Approximation of Linear Operators  
Françoise Chatelin  
978-0-898719-99-4 / 2011 / CL65 / List $77.50 / Member $54.25

Eigenvalues of Matrices, *Revised Edition*  
Françoise Chatelin  
978-1-611972-45-0 / 2012 / CL71 / List $102.00 / Member $71.40

Philippe G. Ciarlet  
978-0-898714-14-9 / 2002 / CL40 / List $74.50 / Member $52.15

Numerical Methods in Scientific Computing, *Volume I*  
Germund Dahlquist and Åke Björck  
978-0-898715-73-6 / 2005 / FR30 / List $92.50 / Member $63.65

Semi-Lagrangian Approximation Schemes for Linear and Hamilton-Jacobi Equations  
Maurizio Falcone and Roberto Ferretti  
978-1-611973-44-4 / 2014 / OT103 / List $119.00 / Member $83.65

Polynomial Based Iteration Methods for Symmetric Linear Systems  
Bernd Fischer  
978-1-611972-45-0 / 2012 / CL71 / List $102.00 / Member $71.40

Matrix Computations, *Fourth Edition*  
Gene H. Golub and Charles F. Van Loan  
978-1-4214-0794-4 / 2013 / JH01 / List $70.00 / Member $49.00

Numerical Analysis of Spectral Methods: *Theory and Applications*  
David Gottlieb and Steven A. Orszag  
978-0-898710-23-6 / 1977 / CB26 / List $61.50 / Member $43.05

Iterative Methods for Solving Linear Systems  
Anne Greenbaum  
978-0-898713-96-1 / 1997 / FR17 / List $77.00 / Member $53.90

Discrete Inverse Problems: Insight and Algorithms  
Per Christian Hansen  
978-0-898716-96-2 / 2010 / FA07 / List $69.50 / Member $48.65

Numerical Computing with Modern Fortran  
Richard J. Hanson and Tim Hopkins  
978-1-611973-11-2 / 2013 / OT134 / List $89.00 / Member $62.30

View complete book summaries and tables of contents at bookstore.siam.org
Nicholas J. Higham
978-0-898715-21-7 / 2002 / OT80 / List $85.00 / Member $59.50

Taylor Approximations for Stochastic Partial Differential Equations
Arnulf Jentzen and Peter Kloeden
978-1-611972-00-9 / 2011 / CB83 / List $79.50 / Member $55.65

Numerical Solution of Two Point Boundary Value Problems
Herbert B. Keller
978-0-898710-21-2 / 1976 / CB24 / List $42.00 / Member $29.40

Linear Differential Operators #
Cornelius Lanczos
978-0-898713-70-1 / 1996 / CL18 / List $90.00 / Member $63.00

Finite Difference Methods for Ordinary and Partial Differential Equations: Steady-State and Time-Dependent Problems #
Randall J. LeVeque
978-0-898716-29-0 / 2007 / OT98 / List $69.50 / Member $48.65

Analytical and Numerical Methods for Volterra Equations #
Peter Linz
978-0-898711-98-1 / 1985 / AM07 / List $85.50 / Member $59.85

Sinc Methods for Quadrature and Differential Equations
John Lund and Kenneth L. Bowers
978-0-898710-23-3 / 1996 / OT49 / List $55.00 / Member $36.65

Iterative Methods for Linear Systems: Theory and Applications
Maxim A. Olshevskii and Eugene E. Tyrtyshnikov
978-1-611973-45-7 / 2014 / MO17 / List $141.00 / Member $98.70

Numerical Analysis: A Second Course
James M. Ortega
978-0-898710-55-7 / 1985 / OT13 / List $43.00 / Member $30.10

Iterative Solution of Nonlinear Equations in Several Variables
James M. Ortega and Werner C. Rheinboldt
978-0-898714-61-6 / 1990 / CL03 / List $63.50 / Member $44.45

Solution of Partial Differential Equations on Vector and Parallel Computers
James M. Ortega and Robert G. Voigt
978-0-898710-55-7 / 1985 / OT13 / List $43.00 / Member $30.10

The Symmetric Eigenvalue Problem #
Beresford N. Parlett
978-0-898716-29-0 / 1998 / CL20 / List $85.00 / Member $59.50

Discontinuous Galerkin Methods for Solving Elliptic and Parabolic Equations: Theory and Implementation
Beatrice Rivière
978-0-898716-56-6 / 2008 / FR35 / List $62.00 / Member $43.40

Afternotes Goes to Graduate School: Lectures on Advanced Numerical Analysis

LOOK FOR THESE TITLES COMING SOON FROM SIAM

Daniel Bienstock
This book will address techniques for quantifying the likely impact of cascading blackouts in a large national power grid.

Riemann-Hilbert Problems: Their Numerical Solution and the Computation of Nonlinear Special Function
Thomas Trogdon and Sheehan Olver
This book will present a new brand of numerical methods for nonlinear special functions that have ideal convergence properties.

An Introduction to Domain Decomposition Methods: Algorithms, Theory, and Parallel Implementation
Victoria Dolean, Pierre Jolivet, Frédéric Nataf
The book will offer an overview of the most popular domain decomposition methods for partial differential equations

Variational Methods for the Numerical Solution of Nonlinear Elliptic Problems (CB)
Roland Glowinski
The author will address computational methods that have proven efficient for the solution of a large variety of nonlinear elliptic problems.

SIAM e-books are for libraries and institutions...

Join the more than 100 university libraries and leading institutions worldwide that have already added SIAM e-books to their collection. Get quick and convenient access to the new ideas and classic titles that students, faculty, and industry professionals must have. By placing your order now, your institution can begin to offer more than 400 titles in SIAM's e-book collection right away.

Choose from two options—Perpetual Access or Annual Subscription—and bring SIAM's e-book advantages to your users. SIAM e-books are:

- **Universal** – stored in PDF files, readable on all browsers, tablets, and computers
- **Convenient** – viewable by chapter and searchable by keyword or chapter headings
- **Secure** – hosted on the same reliable platform as SIAM journals
- **Innovative** – easily cross-searched with SIAM journals by readers and researchers

For complete information, visit [www.siam.org/e-books](http://www.siam.org/e-books).

...and for individuals, too!

Now you can enjoy new and classic SIAM titles on your personal e-reader, tablet, smartphone, or computer. Access SIAM books on Google Play™ whenever you want and wherever you go.

Read top-quality SIAM publications valued by applied mathematicians and computational scientists throughout the world on popular e-book platforms, including:

- Apple™ and Android™ devices
- Nook™
- Sony® eReader
- most tablets, laptops, smartphones, and desktop computers

To purchase SIAM e-books, visit [play.google.com](http://play.google.com) and search for your desired title. Follow the instructions to buy and download (or use from Cloud storage). It’s an easy way to access the knowledge and insight you’ll find in every SIAM book.
Science and Industry Advance with Mathematics

If you receive multiple copies of this catalog, please pass them along to your colleagues.

Does your library have access?

The SIAM e-book program is available for all libraries and institutions. Make sure your librarian knows about this exciting way to instantly deliver the vast information in SIAM books to students, researchers, and industry professionals.

For complete information, visit www.siam.org/ebooks

A PDF of this catalog is available at www.siam.org/books.
