

SIAM Journal on APPLIED DYNAMICAL SYSTEMS

A New Way to Communicate and Visualize Dynamics

SIADS publishes research articles on the mathematical analysis and modeling of dynamical systems and its application to the physical, engineering, life, and social sciences. Submitted articles contribute to the theory of dynamical systems, to the understanding of dynamical systems phenomena through experiment or numerical simulation, or to the use of dynamical systems methods in applications. Contributions can be of a theoretical, computational, or experimental nature.

SIADS is published article by article as part of SIAM Journals Online.*
