

SIAM Journal on
COMPUTING
*Applying Mathematical Principles
to Computing Applications*

Editor-in-Chief
Leonard J. Schulman
California Institute of
Technology

Provides coverage of the most significant work taking place in the mathematical and formal aspects of computer science and nonnumerical computing. Topics include but are not limited to analysis and design of algorithms, algorithmic game theory, data structures, computational complexity, computational algebra, computational aspects of combinatorics and graph theory, computational biology, computational geometry, computational robotics, the mathematical aspects of programming languages, artificial intelligence, computational learning, databases, information retrieval, cryptography, networks, distributed computing, parallel algorithms, and computer architecture.

SICOMP is published article by article at <http://epubs.siam.org/sicomp>

Publication information

ISSN: 0097-5397 (print) / 1095-7111 (electronic)
Frequency: electronically published continuously
Year established: 1972
Available formats: electronic and print
2017 volume number: 46

2017 Rates

Electronic only \$851 / Print add-on \$115
