

SIAM Journal on
IMAGING SCIENCES
Mathematical and Computational Imaging Science

This all-electronic journal covers all areas of imaging sciences, broadly interpreted. Manuscripts published in SIIMS include formal approaches, at the level of mathematics and/or computations, as well as state-of-the-art practical results. SIIMS provides a broad authoritative source for fundamental results in imaging sciences, with a unique combination of mathematics and applications. SIIMS is mathematically and computationally based, and offers a unique forum to highlight the commonality of methodology, models, and algorithms among diverse application areas of imaging sciences.

SIIMS covers a broad range of areas, including but not limited to image formation, image processing, image analysis, computer graphics, computer vision, visualization, image understanding, pattern analysis, machine intelligence, remote sensing, geoscience, signal processing, medical and biomedical imaging, and seismic imaging.

SIIMS is published article by article as part of SIAM Journals Online.* For access to articles go to <http://epubs.siam.org/siims>.

Publication information

ISSN: 1936-4954 (electronic only)

Frequency: electronic: continuous

Year established: 2008

Available format: online

2012 volume number: 5

Multimedia format

2012 Rates

*Electronic-only access: \$337

Volume 1 will continue to be available at no charge.

Editor-in-Chief

Guillermo Sapiro
University of Minnesota

Associate Editors

Nicholas Ayache

Francis Bach

Marcelo Bertalmio

Yoram Bresler

Alfred M. Bruckstein

Robert Calderbank

Lawrence Carin

Vicent Caselles

Raymond Chan

Tony Chan

Frederic Chazal

Yunmei Chen

Albert Cohen

Daniel Cremers

Rachid Deriche

Nira Dyn

Michael Elad
