

SIAM Journal on **OPTIMIZATION**

*Linking Optimization Applications,
Algorithms, Software, and
Computational Practice*

Editor-in-Chief
Stephen J. Wright
University of Wisconsin

Contains research articles on the theory and practice of optimization. The areas addressed include linear and quadratic programming, convex programming, nonlinear programming, complementarity problems, stochastic optimization, combinatorial optimization, integer programming, and convex, nonsmooth and variational analysis. Contributions may emphasize optimization theory, algorithms, software, computational practice, applications, or the links between these subjects.
