

The Flagship Journal of the Society for Industrial and Applied Mathematics

SIAM REVIEW

Impact Factor: 8.235
Rank: 1/175

Five-year impact factors from the ISI® 2008 Journal Citation Reports –Science Edition

Publication information

ISSN: 0036-1445 (print) /
1095-7200 (electronic)

Frequency

Print: quarterly

Electronic: quarterly

Year established: 1959

2010 print volume number: 52

Available formats:

Print (6" x 9"), Online

2010 Rates

Print with electronic access:

\$380 USA, Canada, Mexico

\$455 overseas

Electronic-only access:

\$361

Editor-in-Chief

Robert B. Schnabel
Indiana University

SIAM Review consists of five sections, all containing articles of broad interest. **Survey and Review** features papers with a deliberately integrative and up-to-date perspective on a major topic in applied or computational mathematics or scientific computing. **Problems and Techniques** contains focused, specialized papers about interesting problems, techniques, and tools, including descriptions of mathematical formulations, solution methods, and open questions. **SIGEST** highlights a recent paper from one of SIAM's twelve specialized research journals, chosen on the basis of exceptional interest to the entire SIAM community and revised and condensed as needed for greater accessibility. **Education** consists primarily of individual modules that are self-contained presentations of specific topics in applied mathematics, scientific computation, or their applications; each module provides the primary material needed to teach a given topic as well as supplementary material. The **Book Reviews** section contains a featured review that provides an overview of several books in a subject area. Shorter reviews of individual books are also included.

"There are many virtues of being a SIAM member... SIAM Review is worth the price of admission alone!"

— Omar Ghattas, University of Texas at Austin
