

SIAM Journal on APPLIED ALGEBRA and GEOMETRY

Applied Algebraic, Geometric, and Topological Methods

Editor-in-Chief
Bernd Sturmfels
Max-Planck Institute for Mathematics in the Sciences

Publishes articles on the development of algebraic, geometric, and topological methods with strong connection to applications. Mathematical areas covered include: algebraic geometry, algebraic and topological combinatorics, algebraic topology, commutative and noncommutative algebra, convex and discrete geometry, differential geometry, multilinear and tensor algebra, number theory, representation theory, symbolic and numerical computation.

SIAGA features articles of wide interest. The use of online resources is emphasized, brevity is encouraged, and submissions on computational methods or those that include mathematical software are particularly welcome.

SIAGA is published at epubs.siam.org/siaga

ISSN: 2470-6566

Frequency: electronically published continuously

Year established: 2017

Format: electronic

2019 volume number: 3

2019 rates: \$500
