

SIAM Journal on MATHEMATICAL ANALYSIS

*Using Mathematical Methods
and Innovative Analytical Techniques*

Editor-in-Chief
Robert Lipton
Louisiana State University

Publishes research articles of the highest quality employing innovative analytical techniques to treat problems in the natural sciences. Every paper has content that is primarily analytical and that employs mathematical methods in such areas as partial differential equations, the calculus of variations, functional analysis, approximation theory, harmonic and wavelet analysis, or dynamical systems. Additionally, every paper relates to a model for natural phenomena in such areas as fluid mechanics, materials science, quantum mechanics, biology, mathematical physics, or to the computational analysis of such phenomena.

SIMA is published article by article at epubs.siam.org/sima

ISSN: 0036-1410 (print) / 1095-7154 (electronic)

Frequency: electronically published continuously

Year established: 1970

Formats: electronic and print

2019 volume number: 51

2019 rates: electronic only \$1,251 / print add-on \$212
