# SIAM Journal on COMPUTING

*Applying Mathematical Principles to  
Computing Applications*

Editor-in-Chief  
**Robert Krauthgamer**  
Weizmann Institute of Science

Provides coverage of the most significant work taking place in the mathematical and formal aspects of computer science and nonnumerical computing. Topics include but are not limited to analysis and design of algorithms, algorithmic game theory, data structures, computational complexity, computational algebra, computational aspects of combinatorics and graph theory, computational biology, computational geometry, computational robotics, the mathematical aspects of programming languages, artificial intelligence, computational learning, databases, information retrieval, cryptography, networks, distributed computing, parallel algorithms, and computer architecture.

**SICOMP is published article by article at [epubs.siam.org/sicomp](https://epubs.siam.org/sicomp)**

ISSN: 0097-5397 (print) / 1095-7111 (electronic)  
Frequency: electronically published continuously  
Year established: 1972  
Formats: electronic and print  
2020 volume number: 49  
2020 rates: electronic only \$984 / print add-on \$132

**siam** | Society for Industrial and  
Applied Mathematics
