SIAM Journal on MATRIX ANALYSIS and APPLICATIONS

Researching Applications in Numerical Linear Algebra

Editor-in-Chief
Daniel B. Szyld
Temple University

Publishes research papers on matrix and tensor theory, analysis, applications, and computation that are of interest to the applied and numerical linear algebra communities. Applications include such areas as signal processing, systems and control theory, statistics, Markov chains, mathematical biology, graph theory, and data science. SIMAX also publishes papers that are of a theoretical nature but have a potential impact on applications.

SIMAX is published article by article at epubs.siam.org/simax

ISSN: 0895-4798 (print) / 1095-7162 (electronic)
Frequency: electronically published continuously
Year established: 1980
Formats: electronic and print
2020 volume number: 41
2020 rates: electronic only \$899 / print add-on \$121
